

Cyclops Operator Presence Sensor

Remote Infrared Sensor for the CM2800 Dual Wire Resistance Monitor

CYCLOPS™ operator presence sensors, from Transforming Technologies, assure compliance with personnel grounding requirements and protect ESD safe workstations by sensing when an operator is within the protected work area. An operator who approaches the workstation without connecting their wrist strap causes the CM2800 Series resistance monitor with the CYCLOPS™ sensor to alarm. The alarm continues until compliance is achieved, preventing isolated operators from damaging ESD sensitive devices

CM-Remote IR Alarm Examples

Product Specifications

Detection distance: 10~80cm adjustable. Default 25cm.
Compatible with the CM2800 and workstation monitors through a dedicated 6-pin signal cable.
Dimension: 5.2x3.9x2.5 cm (LxWxH)
Weight: 33g
Operation temperature: 0~40°C

Product Number

CM-Remote-IR Operator Presence Sensor
