

SR0065

Resistance Disk Probe Kit - 5lb

Resistance Probes for ESD Resistivity Meters

These probes are used Resistivity Meters accurately measure surface resistivity of floors, work surfaces, floor mats, paints and finishes and conforms to the EOS/ESD 11.11 specifications. Probes allow for measurement of point-to-point, volume resistance and resistance-to-ground.

Features include:

- Covered yellow PVC sleeves
- Conductive rubber bottoms
- Easy to carry insulative handles
- NIST certificate
- Will work with most Surface resistance meters
- One Year Warranty
