

Metriso 2000 Resistance Test Instrument

Description

The Metriso 2000 test kit comes complete with two 5lb probes and has an integrated temperature and humidity gauge. It is suitable for resistance point-to-point and resistance to ground measurements. The Metriso 2000 is also an integrated data logger with an infrared communication port capable of storing 2,500 test values and transmitting data. It is the complete test kit for resistance measurement of most parts of an ESD protection plan.

Complete test kit with two
Resistance Probes

Specifications

- Test Voltage: DC 10v, 100v, 50v, and 500v
- Test Range: 10^3 to 10^{12} ohm
- Operation: Battery Operated
- Probes: 2 x Model 850 (weight: 5lbs, diameter: 2.5in) with conductive rubber
1 x hand held probe, Model 45

Part Number

- 7100.2000.MK.E: Metriso 2000 Test Kit, English Version
- 7220.850: Probe model 850
- 7100.2000.TF: Temperature and humidity sensor
